MEET THE NEEDS OF TODAY AND TOMORROW. Can we help you develop your workforce of the future? Recruiting a Redeemer University College intern is a great opportunity for early identification of talent. Students receive relevant work experience while you, the employer/community partner, benefit from their fresh perspectives.

Students in the Business Program prepare for a successful career by building a solid foundation of concepts, models, and theories in fundamental business disciplines and applying practical, real-world experience. For third and fourth year students, an internship gives them an opportunity to further their knowledge and skills in an applied setting, while earning academic credit. The Business Department offers four streams of specialization: Accounting, Management, Marketing, and Not-For-Profit Management. Business is a Bachelor of Arts degree within the Business Department.
